

## About Jtek Data Solutions

- Cage Code: 6PXL8
- DUNS Number: 078-386767
- Socioeconomic Info: Small Business
- 8(a) JV Cage Code: 9KL01
- ISO 9001 Certified

### Information Technology

We offer a wide range of IT services from discovery to assessment, architectural review and design to implementation with security, cost and options for every environment in mind.

### Advanced Infrastructure

Decades of experience across multi-national organizations and US agencies with global footprints inform our design and solution focus. Flexible to meet on-premises and public cloud requirements, or a hybrid approach. Familiar with virtualization across the desktop, compute, network, and storage layer.

### Cybersecurity

Cybersecurity assessments and recommendations to protect our customers' environment from compromise and ensure compliance with relevant security standards. Tool and process analysis on a live cyber training range. Experience with DoD STIG and NIST Cybersecurity Framework for risk management.

### Lifecycle Support

As subject matter experts in IT Service Management, JTEK provides our customers with full life-cycle services that support continuous process improvements, change management, technical analysis, and operational integration that are tailored to meet the needs of our customers.

### RPA

Robotic Process Automation technology to increase efficiencies and speed of action while reducing human errors. Options for ease of deployment include a managed service, on-premises, or cloud-delivered. JTEK brings ease of implementation and a broad ecosystem of tools to our customers.

## JTEK DATA SOLUTIONS

Certified Small Business

INNOVATION • SIMPLICITY

## CAPABILITIES STATEMENT

JTEK Data Solutions provides forward thinking solutions to our customers in order to improve mission and business outcomes in a collaborative setting. Our team combines subject matter expertise to be able to diagnose issues within your organization and provide customized solutions with direct partnerships to multiple vendors and distributors to ensure each solution fits your exact needs. In the fast-paced world of Information Technology, JTEK has the ability and dedication to provide solutions that focus on resilience, performance, efficiency, and the highest levels of cybersecurity to keep your organization operational and secure.

JTEK Data Solutions offers a wide range of architectural, design and implementation solutions and support services. We specialize in providing the right solution for a given problem. As a financially stable and agile small business, JTEK can operate with the low overhead of a small business while delivering large business results. Our proven methodology that starts with assessment, architectural design, multiple course of action options and implementation of non-biased solutions which allow customers to realize cost savings throughout the modernization process.

## CORE COMPETENCIES

### Information Technology Services:

- Information Technology services: integration, support and professional services
- Procurement: Key partnerships, vast vendor options and competitive pricing
- Architecture Design: Solutioning documentation, core organizational deliverables (COOP, CONOPS, etc.)
- Cybersecurity: Identity, Devices, Network, Applications, Data, Secure Service Edge - tools and training
- Robotic Process Automation (RPA): Analysis, Evaluation, Development, Delivery and Integration. Secure by design.

### Differentiators:

JTEK personnel represent decades of experience in their field with significant work experience and training. Our personnel have obtained and maintained top level industry certifications in Project Management, Cybersecurity, Process Automation, as well as specific technologies. Our approach to each project or issue is through revision and collaboration to ensure every solution is bespoke for each customer. Our solutions architects have worked in all types of environments including US Federal Government, Fortune 500 and Venture-backed startups; and bring lessons learned and experience to every opportunity. JTEK is a SBA-certified small business as well as a partner in a Tribally-owned 8(a) Joint Venture.
